

The GAR Arbitrator Research Tool

Making arbitrator research quicker, easier, and more inspired

GAR's Arbitrator Research Tool - ART - is a unique database of arbitrators that also allows you to research their approach. It delivers insight and raw data not available from any other source. ART gives you:

- Each arbitrator's approach and procedural preferences
- People to contact who have seen the arbitrator in action recently
- CVs, speeches and other materials

You can search by specialist area, gender, experience, expertise, and more. Additional functionality coming soon!

375 profiles of international arbitrators and new profiles added every week

Would you like to be included in ART? All active arbitrators are welcome. There is no charge to appear. Register your interest!
